Rapor ekranını değiştirin

The screenshot shows the 'Report' software window. The 'Report' button is highlighted. The window displays a table of project items with columns for Item, Model, Quantity, Type, Remarks1, and Remarks2. The table lists various components and their quantities, including outdoor and indoor units, remote controllers, options, and pipe lengths.

| Item              | Model      | Quantity | Type                        | Remarks1 | Remarks2           |
|-------------------|------------|----------|-----------------------------|----------|--------------------|
| Outdoor           | AJY162LALH | 1        | VII Heat pump               |          |                    |
| Indoor            | ABYA30LATH | 1        | Celling                     |          |                    |
| Indoor            | AUXB07LALH | 1        | Compact cassette            |          |                    |
